## 1. Javier Paniza Lucas

		<p>OpenXava project lead. I'm working with Java for Enterprise since 1998, and with J2EE (including EJB) since 1999. I developed Java enterprise software for public administration in Spain. I also worked as J2EE mentor for development teams in Internet Banking projects. I love Java, I love OO and I want that the developers can create business aplicaciones with OO in a very productive way.</p> <p>Contribution : OpenXava/Java specific help. Encoraging project to be opensource.</p>
